The extraordinary meeting had only one item in the agenda.

The recommendation of the Appeals Committee to the State Council of Quality to revise the decision on rejection of the application of the study program Primary Education of the University of Prizren.

The application was rejected due to the fact that some program holders did not meet the criteria on publications.

The Appeals Committee has recommended revision of the decision on the grounds that they have found evidence that program holders have publications in line with the requirements. However, SCQ concluded that the papers referred to by the Appeals Committee were published after the deadline for submission of application, therefore cannot be taken into consideration at this point.

The recommendation of the Appeals Committee was rejected with all votes in favour.
